Plains Anthropologist
Journal of the Plains Anthropological Society

Cumulative Index
1947-2001

Introduction

This volume updates the *Plains Anthropologist* index last published in 1993 (Volume 39, Number 144). Like the earlier volume, it comprises separate listings for authors, titles, and subjects, as well as an obituary index, a book review index, and a list of memoirs. The volume also includes an index of minutes, policy statements, editor's notes, and other Plains Anthropological Society items.

Author and title information on volumes 1-37 is essentially duplicated from the 1993 index. However, book reviews and obituaries are now listed in separate indexes. As in the 1993 index volume, the subject index does not include volumes 1-24. The subject index for volumes 25-37 essentially duplicates the 1993 index. Subsequent volumes are indexed according to keywords supplied by the authors of each article or memoir. Some keywords, however, have been revised or deleted to reflect changes in the field, and new keywords added to accommodate terms, such as "Internet," that either did not exist or were not yet in common usage in 1993 or earlier.

The first four volumes of the journal contained varying numbers of issues. The two issues published in 1954 are listed as Volume 1. Three issues published in 1955 are listed as Volume 2; the two published in 1956 as Volume 3; and the single issue published in 1957 as Volume 4. The journal was reformatted and regularized in 1960, beginning with Volume 5, issue 9. Since then, each publication year has made up one volume with four or five issues. Issues are numbered consecutively from the first issue in 1954 through the current issue. This index also lists the *Plains Archeological Conference News Letter*, 1947-1953, the precursor of *Plains Anthropologist*.

The 1947-2001 index will also be available at the Plains Anthropological Society web site, www.uiowa.edu/~osa/plainsanth/. This will allow readers to search the index electronically.
